

Personal Development Curriculum:

Our Personal Development Programme is designed to equip students with information to support them through the challenges of their formative years: the programme looks to educate and nurture students, enabling them to make informed choices in their lives so that they can keep themselves healthy, safe and happy. The programme encourages all students to be open-minded citizens and to prepare themselves for life in modern Britain. It is essential that our students know how to manage their academic, personal and social lives in a positive way - the programme works in a structured and developed way to enable this.
