

Year 9			I feel confident in...	I need to work on...
Spring 1	Algebra	Collecting like terms, expanding and factorising single and double brackets		
	Further Quadratics	<b>Complicated expanding, triple brackets, factorising quadratics with co-efficient &gt;1, difference of two squares</b>		
	Solving Equations	Function machines, forming and solving equations, problem solving, unknowns on both sides, using formula, word problems, perimeter and area problems		
	Equations	Forming and solving, changing the subject		
	Time	12 hour, 24 hour, timetable		
	2D Shapes	Units of measurements, properties of polygons - regular and irregular, be able to name a range of polygons		
	Perimeter and Area	Find area and perimeter of a variety of polygons, compound shapes, problem solving		
	Circles	Circle properties, find the area and perimeter of circles - including sectors, problem solving
